Kongnyuy Livingston

Software Developer || Python(Django) || Dart(Flutter) || Junior Data Scientist
Bamenda I, Northwest, Cameroon

Summary

I'm a computer engineering student, I bring over 2.5 years of experience in developing applications using Flutter (Dart) and building RESTful APIs with Python's Django framework.

My passion for software development has driven me to hone my skills in building efficient and user-friendly mobile applications across iOS and Android platforms. With Flutter's cross-platform capabilities, I have leveraged its powerful features to create seamless and responsive user experiences.

In addition to my expertise in mobile development, I have also delved into backend engineering, specializing in Django and Django REST Framework. This skill set allows me to design and implement robust server-side solutions, ensuring smooth communication between the frontend and backend components of applications.

Driven by my curiosity and dedication to continuous learning, I have recently begun exploring the field of data science, including machine learning. I am currently taking courses in these areas, determined to expand my knowledge and stay at the forefront of emerging technologies.

Thriving in collaborative environments, I am eager to contribute my expertise to projects that push the boundaries of innovation. With a solid foundation in computer engineering and hands-on experience in mobile and backend development, I am poised to tackle new challenges and make meaningful contributions to the world of technology.

Experience

GOHZE
Software Engineer Internship

March 2024 - Present (6 months)
Yaoundé, Centre, Cameroon

As a software engineer intern at Gohze, I am involved in a wide range of projects spanning mobile app development, backend systems, and data science. I contribute to the development of innovative solutions such as the Sales Management system, which predicts sales for local businesses, and the Health Inventory app, which predicts health diseases in the community and more exciting projects. I actively engage in problem-solving, collaborate with cross-functional teams, and continuously learn and adapt to new challenges. Through my work, I strive to make a meaningful impact by leveraging technology to drive positive change and deliver exceptional software solutions.

ZiloTech
Software Engineer at ZiloTech
February 2023 - Present (1 year 7 months)
Bamenda I, Northwest, Cameroon

Corextreme Technologies
Mobile Application Developer
March 2024 - June 2024 (4 months)
London, Cameroon

I'm thrilled to announce that I've joined Corextreme Technologies as a Flutter Developer. With a focus on creating exceptional user experiences across platforms, I'm excited to contribute to the company's innovative solutions. Corextreme Technologies is a leader in cutting-edge technologies, and I look forward to pushing boundaries and revolutionizing mobile app development

Skye8
Mobile Developer
July 2023 - September 2023 (3 months)
Bamenda

Working at Skye8 as a Mobile Developer Intern not only allowed me to enhance my technical skills but also provided me with invaluable exposure to real-world challenges. The dynamic nature of the projects I worked on enabled me to tackle complex problems and find innovative solutions. This experience has equipped me with the confidence and readiness to take on any project that comes my way.

Throughout my internship, I encountered diverse scenarios that required quick thinking, adaptability, and effective problem-solving. These experiences taught

me the importance of collaboration, communication, and meticulous attention to detail in delivering successful mobile applications.

I am now well-prepared to face the challenges that come with mobile development in the professional world. Skye8 has been instrumental in honing my abilities and instilling in me a strong work ethic and a passion for delivering high-quality results.

I am eager to continue my journey as a mobile developer and contribute to meaningful projects that make a positive impact. With the skills and experiences gained at Skye8, I am confident in my ability to excel in any project I am a part of.

JAX Communication Agency
Software Developer
February 2023 - September 2023 (8 months)
Togo

During my time at Jax Communication, I utilized a wide range of technologies including Python, Django, Django Rest Framework, Dart, Flutter, HTML, CSS, and Bootstrap. As a software developer, I leveraged these tools to build robust full-stack web applications and mobile apps, contributing to the organization's technological advancements.

CivilSalt
Back End Developer
August 2021 - September 2023 (2 years 2 months)
Bamenda, Northwest, Cameroon

During my internship at CivilSalt, I worked as a Backend Developer specializing in Python and Django. This experience immersed me in the world of web development and allowed me to gain hands-on experience with industry-standard technologies.

As a key member of the development team, I contributed to several noteworthy projects that showcased my skills and problem-solving abilities. One standout project involved building a comprehensive content management system (CMS) for an education sector client. This CMS streamlined the management and organization of educational resources, offering an intuitive interface for both administrators and end-users. Through this project, I honed my Python and Django proficiency while gaining a deeper understanding of database management and API integration.

I also played a significant role in developing an e-commerce platform. Collaborating closely with frontend developers and designers, I implemented complex business logic, integrated payment gateways, and ensured seamless functionality for the platform. This project presented real-world challenges such as handling high traffic, optimizing performance, and ensuring data security.

Throughout my internship, I faced various real-world problems that demanded critical thinking, effective troubleshooting, and the delivery of reliable solutions. Whether it was debugging intricate issues, implementing new features, or optimizing performance, I thrived in the fast-paced environment and quickly adapted to meet project requirements.

My time at CivilSalt not only enhanced my technical skills but also instilled in me the importance of teamwork, clear communication, and meeting project deadlines. I am confident that the experiences and challenges I encountered during my internship have equipped me to tackle real-world problems and make valuable contributions to future projects.

Education

University of Bamenda(National Higher Polytechnic Institue)
Bachelor's degree, Computer Engineering · (October 2021 - October 2025)

WorldQuant University
Applied Data Science Lab, Data Science · (January 2024 - July 2024)

University of bamenda
Masters in computer engineering, Computer Engineering · (2021)
